BEAUTY TO GO!

Properties list:

end-user packaging
single product
new product
water
other shapes
polylaminated
luxury
unusual structural association
metallescent
identity by colour

From the <u>Colette</u> site: "Daily Beauty To Go! from the Hoher Fläming Nature Reserve in Br andenburg is a beneficial spring water. At a depth of 150 meters, this water is fully protected from any outside influences. Its quality is characterized by especial purity. This water comes with rich quantities of silicon which improves moisturizing and enhances the tension and elasticity of the skin. Daily Beauty To Go comes in an environmentally responsible Tetra Pak® packaging."
