

EXTRA BAGGAGE

Properties list:

- arts and crafts
- end-user packaging
- single product
- extra-use of packaging
- concept
- clothes and accessories
- shopping bag
- plastics
- eco-friendly
- recycled materials

The project author first collected tones of basic plastic bags that are given away by shops of all kind, and she literally created a material by heating them in layers with a pressing iron. Then she created with this new material all sorts of bags, sleeves and cases simply by sewing it with a green thread giving it a nice trendy «green» look.
