## **SPIDERMAN CANDIES**

## Properties list:

illustrated character contemporary plastics jar and pot confectionery and sweetness new product single product end-user packaging kids

This packaging has the shape of a bin, but the material is trasparent plastic. It contains candy (gelee?s) wrapped in protective films and the top of the bin is openable, to permit the fruition of the product. Furthermore the top present a slot, so that the packaging, when empty, can be used as a money box.
